After 15 years living in a socialist country I was happy to move home. It seems the socialism moved with me. Saddens me.

All children should have medical coverage. All adults need affordable coverage. Drug costs are out of control, too much is spent on advertising/TV

Although both parties have their issues, I cannot understand why anybody is still supporting Trump and the Republicans who are decimating all the safety nets and the environmental laws and trying to mix religion and politics and are discriminating against poor people, women, and people of color. I am terrified of the way are country is going now and also the involvement of people at the top with Russia affecting the election and they way Trump keeps goading North Korea and being buddies with the Philipine leader who is having people there assassinated. But I also don't understand why the Republicans are still supporting Trump, other than they get to do whatever they want to to make the rich get richer.

Appreciate the chance to contribute.

Apres moi le deluge.

California gun laws are too strict.

California should be shame as I have become by being here my entire life. It is now only an embarrassment and Jerry Brown need to jump off a cliff and end himself

Congress needs to work together to get things done. Compromise by both sides is needed. Trump needs to stop texting!

cool

Corporate takeover of elected officials is killing the, country and faith in gov. That is why we have the idiot POTUS Trump.

crazy and dangerous Trumps has got to go or we will be blown off the map

Decisions by government al all levels needs to be based on REAL FACTS, and not on opinion or on who will benefit.

Difficult to feel Eastern Oregon has much say or receives any benefits in our states politics, we mostly lose our needs for west side prejudices

divisiveness and lack of compromise is subverting the system.

Don't know

Don't want to tinker with a broken health system. Throw insurance based health care out and go to single payer.

Donald Trump is mentally unfit for the office of president and must be removed from office. Everyone knows it by now.

Even Portland's City Council is regressive and afraid of change. Don't be so fearful of the motorized public.

Every thing Donald Trump touches is poison, today he cut environmental regulations back to the level of 1960 so look forward to dirtier water and air.

Everything was clear.

Fun interesting survey

Generally I favor conservative policy but I also think everyone should take personal responsibility in caring for the earth. I recycle everything.

I am afraid that our country is headed into a cultural and scientific dark ages, that will impact our quality of life for decades

I am deeply concerned about the future of this country. I also forgot to mention that I am very concerned about Russian interference.

I am horrified that the current administration is behaving as though they totally abhor science & scientists. It is a national disgrace.

I am not a Liberal.

I am not a strong Democrat but I did vote for Hillary. I did vote for Obama in 2008 and should of in 2012. Trump is a curse on our country. My mother is an evangelical Christian and said Trump was sent here by Jesus and Putin is not a bad guy. I don't believe in God anymore but I have never been happier, despite of Trump shitting the bed every day on Twitter and possible WW3 looming. Thanks!

I answered Democrat to 57 but really it would depend on the candidate not the party affiliation.

I appreciate surveys regarding political issues such as this. Our political scene is an embarrassment on the world stage at the moment.

I believe in limited federal government and returning power to the states. I feel there is a lot of bloat and wasteful spending with very little to show in return. On the subject of healthcare I believe the system should be changed so that insurance companies must market and sell to individuals and not their employers. In this system employers could offer money towards health insurance, but the health insurance company, plan, and decision are solely up to the employee.

I believe most people are incapable of processing the amount of political information that is available today nor have the time or are qualified.

I did not experience any technical difficulties. The instructions were clear.

i do not know

I do want to add, that I'd be a lot more open to the government taking more of my money if I didn't see how much abuse there is of it. The fact is, hard earned taxpayer money is not only completely wasted by the government, but they see it as they're very own petty cash box. And what person in their right mind wants to hand over ever more money to a dishonest broken system such as that. Not to mention, that people like me are already being bled dry. And the system is broken on all levels. Read Civil Disobedience by Thoreau - truer today, than when it was written so long ago. Just today, I read a piece about a musician in Wyoming who had his life savings confiscated by the police who appear to be perpetrating a scam on unsuspecting citizens, and then, completely destroying their lives. Not to mention, the head of our country at the moment, who shared those tweets of the UK alt right, and getting away with his sexual misconduct, while everyone else is beginning to pay as they should. Not to mention, just how that man and his cronies have ratcheted up the hatred volume, and people in general, are just crappier to each other, and this man's hateful influence has more than done its share to turn up the hatred around the world. I love my country, but I feel heartbroken right now by the state of so many things here. I don't know the answer, but I know so many sad people today who feel just as I do. Heartbroken.

I enjoyed the opportunity to express my opinion.

i enjoyed the survey i was into it thank you so much for opportunity to participate

I enjoyed the survey.

I guess I'm a greenie. :)

I hate Donald Trump

I hate the feeling of powerlessness in the way things are going with our current administration.

I have lived in Canada and have experienced their health care system, and it was really very good. For the few that complain in Canada, the wait time in USA is about the same. I was even able to see a Dr. as a USA Citizen and not have to pay for it.

I have some liberal views on some aspects, but I am a registered Republican and I voted for Evan McMullin in the last presidential election and I plan on voting Republican in the future. I do not support Donald Trump at all. Very interesting survey, thank you.

I just want the arguing to stop

I lived overseas for a long time, and I am concerned that through the Trump presidency that the U.S. is losing all credibility in the eyes of the rest of the world.

I rarely if ever have voted for a person because of party affiliation, I vote for the person who I think will do the best job for the position they are seeking or their history in that position.

I really dislike the way the Democratic Party and Republicans make everything political. Its also frustrating to watch the circus unfold that is constantly trying to destroy the President just because he is a Republican.

I think our president is a narcissist psychopath, congress & senate are all crooks, and all government cares about is money.

I think this survey was very interesting,would like to know more of the facts to give a better answers

I think we need to get congrss to work together to make this country what the american public deserves and not run by special interest and corporation

I thought this was one of the better surveys I've taken.

I wish Donald Trump would drop dead.

I won't answer a question about income & resent that you bury it near the end of the survey. The answer I entered is bogus.

I would have preferred writing in my own choices rather than supporting another poorly written survey to be used by democrats.

I would love to know the results of this survey!

I'm a moderate on a lot of things. I think we need more compromise and in-between on things, neither extreme is good.

I'm against illegal immigration not legal. Climate has been changing for tens of thousands of years.and we have had nothing to do with it .

I'm tired of seeing people on welfare buying groceries like steak that I can't afford; stop giving people on welfare cell phone. I can't afford one

I'm truly scared for the future of our country. All presidents have had pros/cons but not one has ever left me terrified for the future like Trump.

If I entered the year of my birth, why did I have to check my age range? Can't you figure that out?!?!

impeach trump and drain the swamp he created!

impeachment soon, demand Trump's taxes, hold him responsible for assaults on women, stop government by Twitter bullying

in my opinion, government has become far too important to the everyday citizen. as a result it has become a more intense focus, and this has made it higher stakes in peoples minds. in turn this is driving the partisan animosity. if we stripped down the role of government a bit, I think "we" as a whole, would have less to argue about. just my two cents.

interesting and comprehensive survey you put together. Government spends too much money which nobody including Trump can change. They basically just protect one another. Trump's behavior is diicable although I think his intentions are better than democrats.

On December 15th amazon is forcing all users to begin using the new worker site. One of the many changes will be the inability for workers to see the "Auto Approval" time set by requesters. Many workers use this information to aid in deciding whether or not to do a HIT. Please consider including the Auto Approval time in your HIT descriptions. On political surveys I like to hammer on the fact I strongly believe republicans are not remotely conservative. They have become the party of nihilism. We are letting the insane portion of our country dictate policy. We are heading off the cliff, not because of conservatism or liberalism, but because people with brain disorders are at the wheel.

one of the best surveys I've seen

Oregon is turning into California. Too many know nothing liberals in Salem.

Our city should prioritize public safety. Should not allow camping or homeless RV's. People should be helped to find jobs and get off drugs.

Our politicians today only parrot what their respective parties tell them. Both parties are only concerned about re-election not their constituents.

Partisanship has been a distraction from serious issues like the current looting going on in government and the selection of unqualified people to work in government appointed by Trump. I do believe Russia interfered significantly in the election and too many citizens are willing to accept that because their "guy" is in. I see the current administration as "pigs at the trough" and feel a great sense of doom about the future.

Politics are so interesting. It's almost impossible to identify with one party though. President Trump is a pathological liar, a bombastic buffoon, a moron, a sex offender.

President Trump is following a hard core policy to

Pretty broad range of issues

Q57. I did not and would not vote for Donald Trump. Ever.

Question 57 should have been worded differently. I always vote for the best candidate irrespective of political party or I won't vote for that office

Questions regarding political leanings should be broken out into financial, social, and other subheadings.

Read my previous comments.

Republican congressmen should be outlawed.

Revise our government system so that best solutions result without political influence.

Sad that are President's first plan for action is: Revenge - undo Obama's work - regardless of any benefits it may have created.

Since the Democratic party has become liberal idiots in the last few years, it's hard to even consider voting for any Democrat.

Some of those statements were not my views at all but I did chose as you asked in the way I would lean. Interesting survey, thank you!

Some questions over simplify issues. Sadly many people think right/wrong, or single cause issue

some questions parameters did not allow for me to reflect my opinion accurately.

Stop engaging in Marxist political indoctrination.

Stop military industrial complex make politicians accountable 365 days a year not just at election time limit campain length time

Strange times indeed.

Subsidized mass transportation made more available in smaller towns and cities would cut down the necessity to drive.

Such a great study! Really enjoyed to answer on questions. Thanks!

Sure. 1. we're not a "democracy" - we're a Republic with democratic features ("democracy" connotates mob rule, and lends itself to useless activities like march mobbing the streets and blocking freeways, the solidarity feels good but it is far less effective that contacting one's Representative and/or running for local office - that is how we can really start to effect change - being clear with semantics i.e. we have representative government, might help to promote more effective political behavior. The transpartisan powers that be are quite happy to have the streets filled with citizens acting as useful idiots vs.those same citizens testifying/serving at City Hall and State Legislatures. 2. it would be helpful to distinguish legal immigrants from illegal immigrants - those are 2 different policy answers for many voters. 3. it would be nice to see questions about secondary outcomes from policy changes e.g with single-payer care "are you comfortable with healthcare being denied to smokers and obese people in the future" (as they are now denying surgery to taxpaying citizens in the NHS), "are you comfortable with a massive decrease in medical and pharmaceutical innovation" (as is typical when you remove the profit incentive from medical research). 4. re: a Constitutional amendment to regulate political spending - we would have to repeal the 1st Amendment for this to work - read through the Citizens United decision (including the ACLU's amicus brief in support of it), and it will be clear that political spending/speech IS free speech, no matter how odious it is. But overall, this was a really well written survey! I take a lot of these and most are embarrassingly biased against conservatives, which (as a conservative) makes me question their academic integrity, but yours was thoughtfully written! (though the lack of questions on the economy and national debt suggests that you are somewhat more biased towards Democratic concerns :)

Survey went smoothly.

survey worked fine

Tax plan Republicans are trying to jam through is a disaster. It didn't work for Reagan, nor for Kansas. Our current president is a vile creature.

The biggest danger to our democracy is the polarization of the electorate and our elected representatives into extreme left and extreme right.

The biggest issue to be addressed in this country is the decline in morality.

The cost of housing, apartments have sky rocketed, that needs to stop.

The current political direction is leading us away from a united country !!

The election of trump has caused me so much heartbreak. His demeanor, stand on environment, privatization of education, women's rights, human rights, immigrants, military, health care, tax breaks for wealthy, are just a few of the issues that have made me so angry. He is a disaster.

The largest problem this country faces is the rampant abuse of all government programs intended to assist the poor that actually keeps them poor

The level of corruption in the government is appalling

The link on the HIT page has an extra backslash at the end, causing a perceived internal error. Just FYI

The media need an urgent makeover.

the policy of our country is well directed, it is one of the most efficient systems

The president has made things worse in America & will continue to do so until he is voted out of office.

The ranges for answers are poor, given that most of the topics are very nuanced

The state of our healthcare system is really concerning. It makes me so angry to think about how much basic things cost now, even after insurance.

The Trump administration is the worst event in my lifetime. Every human being will pay the price for generations to come.

The two party system is in trouble because the objective of politicians is to get reelected.

The wording in the questions about climate control solutions was very confusing

There is a lot that needs changing. Only 4 year terms for Senate and House seats.

There is conflicting age requirements on your survey. One page states survey for 55 yrs and over, another place it states you want 35-54 yr olds

There needs to be a three party system.

There needs to be a way to make electric vehicles more affordable, as not everyone can afford one. Interesting survey.

There should have been a space where I could really give my opinion on a few things.

There were one or two questions I would have used another option beside the A strong and B weak and the two leans.

There were some references to "we" which didn't indicate if meant Americans or all humans. America is already doing more than enough to combat climate change, and needs no further federal regulation. Any arguments about climate change and pollution should be directed exclusively at China, India and Africa, not us.

This was a good survey requiring serious thought. Thank you

This was an excellent survey.

This was interesting, thank you very much for the chance to participate!

This was very interesting and well done. Thanks!

This was very interesting, thank you!

Tired of the war between conservatives and liberals, fake news, and the politicians lies. Wished this country could come together.

Too much corruption in government on both sides, term limits need to be imposed!! The media needs to become more responsible in their reporting of just the facts and not the propaganda machine most outlets have become.

Trump and conservatives are destroying this country and world in the name of greed and bigotry they are traitors

Trump is a disgrace, and Congressional Republicans are not much better.

Trump is leading us into war.

Trump needs to resign, he may destroy our country.

Trump says the country is improving due to him. When I shop or pay bills my money isn't enough. Where are these Trump victories

Trump's unilateral decisions are going to harm the US. His late night tweets are an embarrassment to our country. Stop provoking Kim Jong Un

ty

Very biased and leading questions. Using "toxic" and some other words are written to influence the person taking the survey.

Very frustrated media bias. I believe true journalism is dead, and is reflected in the way politics is presented and opinions formed.

very good

Very good questions, but some were a little difficult to understand what you were asking. sometimes I needed an unsure where there wasn't that choice

Very good survey, made me think!

Very informational about what is going on in our world today

Very timely and very important issues!!!

Very well written. Language was precise and specific

Washington D.C. is NOT a State. It is a City.

We are all in deep, deep trouble.

we live in trying times

We MUST remove Trump and his cronies while we still have a country.

We need another president. President Trump is destroying our country and setting and implementing bad policies.

We need more studies like this to expose the backward nationalistic feelings and attack on education by uneducated Religious bigots that our President

We need more surveys like this one

We need more transparency in govt and hold politicians for voting that favors their constituents

We should work harder to education the public on political issues.

Well done.

when a candidate wins the election for president everyone needs to support them no matter liberal or conservative

While I support programs that aid the poorest of our community, I feel there should be strict limits on the amount and duration of such monetary aid.

Why ask for both my year of birth and my age category?

Why did you ask the year I was born, then ask for an age category?

Wish Trump would tweet less and Democrats would get over their childish and un American resistance to the election result! Driven me from Dem party

Yes. The current political scene is bad. I honestly hope future generations do better with politics than ours.

You wanted 2013 household income?? Not 2017?? Our financial situation has just deteriorated in the past couple of years. [THIS ERROR WAS CORRECTED]
