

Oregon Values & Beliefs – Survey 1 (of 3) Annotated Questionnaire

Topics: General feelings about Oregon; optimism about personal future; public service priorities; general issues as competing policy statements: public safety, economic growth vs. environmental protection, transportation investment, growth management, amount of government services, economy and consumption, climate change, government spending/deficit; organization image; demographics

Research Design:

- Scientific random sample survey of 2,971 Oregonians in 5 regions of the state
- Conducted May/June 2013
- Data collected by telephone (landline and cell) and online to reach more Oregonians
- Regional quotas based on U.S. Census Updates for age, gender, and income to ensure representative samples within regions
- Regions proportionally weighted for statewide results per U.S. Census Updates
- 20 minute survey instrument with 70 closed and open-ended questions
- Quality control measures including pre-testing, questionnaire triangulation, validations, and monitoring calls completed for telephone surveys
- Overall margin of error +/- 1.8% at 95% confidence level

PUBLIC SERVICES PRIORITIES

Below is a list of services about which people have differing ideas of importance. For each, indicate how important it is for you. For each one, indicate if it is very important, somewhat important, neutral, somewhat unimportant, or very unimportant. Indicating if it's very important or somewhat important means you would support some increase in your taxes to increase the service or some reallocation of tax dollars away from other existing services; neutral means you don't want more tax dollars to go to that service even if that means a diminished level of the service over time; and somewhat or very unimportant means you want fewer or no taxes to go to that service now and that it should be reduced or discontinued entirely. **(RANDOMIZE)**
